

Metro Atlanta, GA

Media Rooms are very popular. Only see what you want to see. We blended our technology with a Tuscan interior design. This room has surround sound to go with the 60" plasma.

Contemporary Media Rooms blend technology well. Stan Topol & Assc. designed this room with our technology in mind from the beginning. All of the electronics look like they belong.

Kitchens shouldn't be left out. You no longer have to miss the show to prepare meals. High Definition is delivered right to the kitchen as well as the main viewing rooms.
