

Debordien Colony, SC

Distinctive living at the touch of a button. Lights dim, the fireplace lights, a screen emerges...you never left your favorite chair!

Home Theaters and Flat TV's are just the beginning. Imagine every light and lamp, HVAC, and weather information controlled from a screen in each room.

A children's Media Room doesn't have to lack style. This room can surf the net, watch movies, and play video games just by touching a wireless screen.
